CRIME SCENE RECONSTRUCTION LEVEL II

Tuition \$725.00

Register

ONLINE:

www.bevelgardner.com

Prerequisite

Successful completion of an approved 40-hour “basic” Crime Scene Reconstruction course.

Students

Bring a laptop, if possible

Purpose

A course of instruction designed for investigators, crime scene technicians, forensic technicians, and others practicing crime scene analysis. The course will enhance basic skills and develop advanced skills used to analyze complex crime scenes. Additionally, the student will be given an opportunity to practice their analysis skills and see how to properly present their findings in court.

Topics

- Integration of forensic disciplines
- The Scientific Method
- Event flow charting
- Review case analysis
- Court admission
- Re-enactment techniques
- Writing a reconstruction report
- Qualifying questions for the court
- Completing the reconstruction of an actual case that has multiple victims, suspects, weapons, and crime scenes

Register

ONLINE: www.bevelgardner.com

Objectives

- Demonstrate proper use of the Event Analysis technique to define objective information about a criminal incident.
- Understand functional methods and techniques of creating demonstrative evidence to illustrate their analysis.
- Understand and demonstrate how to properly withstand Daubert-type hearings on crime scene analysis.
- Understand and demonstrate an ability to articulate their analysis to a jury.
